

5-Year Placement Report for BLDEA's J.S.S. College of Education, Vijayapur

This report provides an analysis of the placement data for BLDEA's J.S.S. College of Education, Vijayapur, spanning the academic years 2019-20 to 2023-24. It details the number of students placed in various positions, including government-aided and unaided high schools, as well as other roles such as Police Sub-Inspectors (P.S.I), First Division Assistants (FDA), Second Division Assistants (SDA), and Panchayat Development Officers (PDO).

Placement Data Overview

• Academic Year 2019-20

- **Total Students Placed:** 58
- **Placement Types:** Government-aided and unaided high schools, with some students securing positions in other roles.
- **Comments:** The college achieved a solid placement record with a diverse range of job placements, reflecting effective placement support.

• Academic Year 2020-21

- **Total Students Placed:** 29
- **Placement Types:** Government-aided and unaided high schools, and other positions like P.S.I, FDA, SDA, PDO.
- **Comments:** The significant drop in placements is attributed to the COVID-19 pandemic's impact on the job market and recruitment processes.

• Academic Year 2021-22

- **Total Students Placed:** 55
- **Placement Types:** Government-aided and unaided high schools, as well as roles such as P.S.I, FDA, SDA, PDO.
- **Comments:** A substantial recovery from the previous year, with strong placement numbers indicating a rebound in the job market.

• Academic Year 2022-23

- **Total Students Placed:** 65
- **Placement Types:** Government-aided and unaided high schools, and other roles including P.S.I, FDA, SDA, PDO.
- **Comments:** The highest number of placements in this period, showing the institution's effective placement strategies and a favorable job market.

• Academic Year 2023-24

- **Total Students Placed:** 62
- **Placement Types:** Government-aided and unaided high schools, and positions such as P.S.I, FDA, SDA, PDO.
- **Comments:** Consistent performance with only a slight decrease from the peak year, reflecting stability in the college's placement outcomes.

Placement Distribution by Job Type

- **Government-Aided and Unaided High Schools:** The majority of placements each year have been in government-aided and unaided high schools, indicating a strong alignment with the college's primary training focus.
- **Other Jobs (P.S.I, FDA, SDA, PDO):** A significant number of students have secured roles in various government positions such as Police Sub-Inspectors, First Division Assistants, Second Division Assistants, and Panchayat Development Officers, showcasing the versatility of the college's placement support.

Summary and Analysis

- **Trend Analysis:** The placement data reflects a strong recovery and growth trend, especially after the pandemic's impact. The peak placement year was 2022-23 with 65 placements, demonstrating effective adaptation and enhanced placement mechanisms.
- **Placement Diversity:** The consistent placement of students in both educational institutions and diverse government roles highlights the college's successful strategy in catering to various job markets.
- **Impact of External Factors:** The notable dip in 2020-21 due to the pandemic underscores the challenges faced but also highlights the institution's resilience and capability in navigating such disruptions.

Conclusion

BLDEA's J.S.S. College of Education, Vijayapur, has shown commendable placement performance over the past five years. The college effectively supports students in securing positions in government-aided and unaided high schools as well as various government roles. Continued focus on maintaining and improving placement strategies will be crucial in sustaining these positive trends and adapting to future job market conditions.
